

Dear Band Parents,

The Band Boosters have voted to procure the funding and purchase new marching band uniforms. The new uniforms have many features that will enhance the fit of our uniforms and the look of our marching band.

In order to purchase a good mix of sizes, we need measurements from **every** concert, symphonic, and wind symphony band member, including seniors. The instructions for measuring and a space for each measurement are included below. Timing is tight because we must place the order by March 1 in order to receive the uniforms in time for marching band season.

All measurements will be kept confidential. The information will only be used for ordering the new uniforms and for issuing uniforms to next season's marching band members.

Please have your child wear light clothing and keep the measuring tape straight and against the body, but not tight. Note: Drumline will be measured at school.

Please return this completed form to the black box by Friday, Feb. 25! We must collate the information and send to the company by Wednesday, March 1.

Thanks for your cooperation and support,

KT Tarro (Marching Band Coordinator) and Laurie Lazear (Marching Band Uniforms)

LAST NAME _____

FIRST NAME _____

STUDENT I.D. NUMBER _____

CURRENT GRADE LEVEL _____ **GENDER:** Male _____ Female _____

CHEST: Measure the entire circumference of the broadest part of chest _____”
